

Anti-spam policy

1. Introduction

- 1.1 In the context of electronic messaging, "spam" means [unsolicited, bulk or indiscriminate messages, typically sent for a commercial purpose].
- 1.2 We have a zero-tolerance spam policy.

2. Credit

- 2.1 This document was created using a template from SEQ Legal (<https://www.contractology.com>).

3. Spam filtering

- 3.1 Our messaging systems automatically scan all incoming email and other messages and filter out messages that appear to be spam.
- 3.2 We may also report incoming email as spam. This can result in IP addresses and domain names being blacklisted.

4. Spam filtering issues

- 4.1 No message filtering system is 100% accurate, and from time to time legitimate messages will be filtered out by our systems.
- 4.2 If you believe that a legitimate message you have sent has been filtered out by our systems, please advise the message recipient by another means.
- 4.3 You can reduce the risk of a message being caught by the spam filters by:
 - (a) sending the message in plain text (instead of, or in addition to, HTML);
 - (b) removing any message attachments;
 - (c) avoiding the terminology and text styling typically used by spammers; and/or
 - (d) ensuring that your messages are scanned for malware before dispatch.
